Projects

IntelliView — AI-Powered Interview Preparation Platform

[Live](#) | [GitHub](#)

MERN Stack, Tailwind CSS, Context API, JWT, Gemini API, Puppeteer

- Built and deployed a full-stack AI interview preparation platform using the MERN stack, enabling end-to-end candidate assessment from resume upload to AI-generated mock interviews.
- Integrated **Gemini API** for role-specific interview question generation, skill-gap analysis, and personalized interview preparation workflows.
- Implemented **JWT authentication** with HTTP-only cookies and token blacklisting; developed an ATS-optimized resume builder with dynamic PDF generation using Puppeteer.

Employee Management System — Workforce Tracking & Administration

[Live](#) | [GitHub](#)

MERN Stack, Tailwind CSS, JWT Authentication

- Developed a full-stack Employee Management System with dedicated admin and employee portals for complete workforce administration.
- Implemented **JWT-based Role-Based Access Control (RBAC)**, attendance management, and employee performance tracking features.
- Designed RESTful APIs using Express.js, managed data with MongoDB, and built a responsive UI with React.js and Tailwind CSS.
